### Five Red Engines Lined Up at the Firehouse Door

Five red engines lined up at the firehouse door,

One pulled away and then there were

Four red engines parked next to a tree,

One pulled away and then there were

Three red engines cleaned by Fire Fighter Sue,

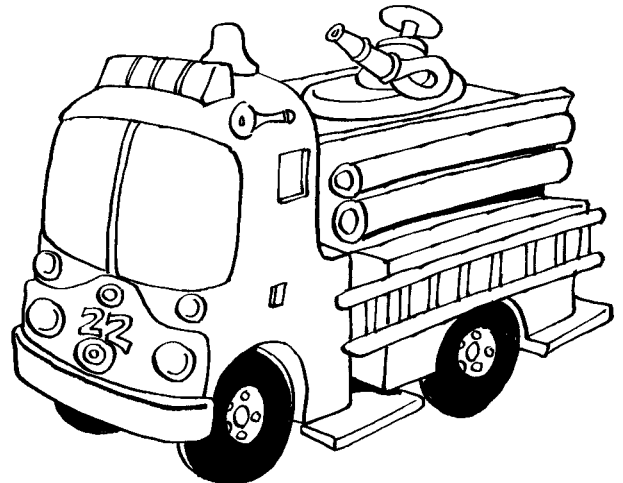

One pulled away and then there were

Two red engines waiting outside in the sun,

One pulled away and then there was

One red engine heard the fire bell ring,

Off it went with a clang, clang, clang!

Say "good-bye."
